

# FPT Open AI Platform

---

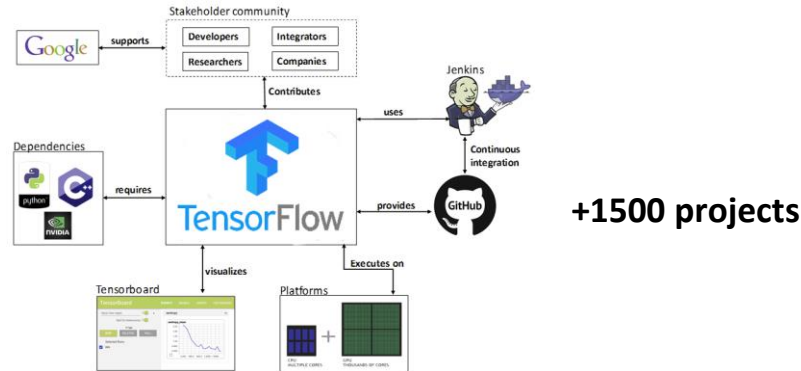

November 2020

# AI Open Platform Trend

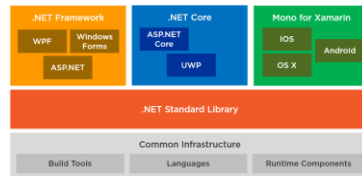

Google

TensorFlow - opensource machine learning framework released 2015

Microsoft

.NET - free, cross-platform, opensource developer platform released 2002

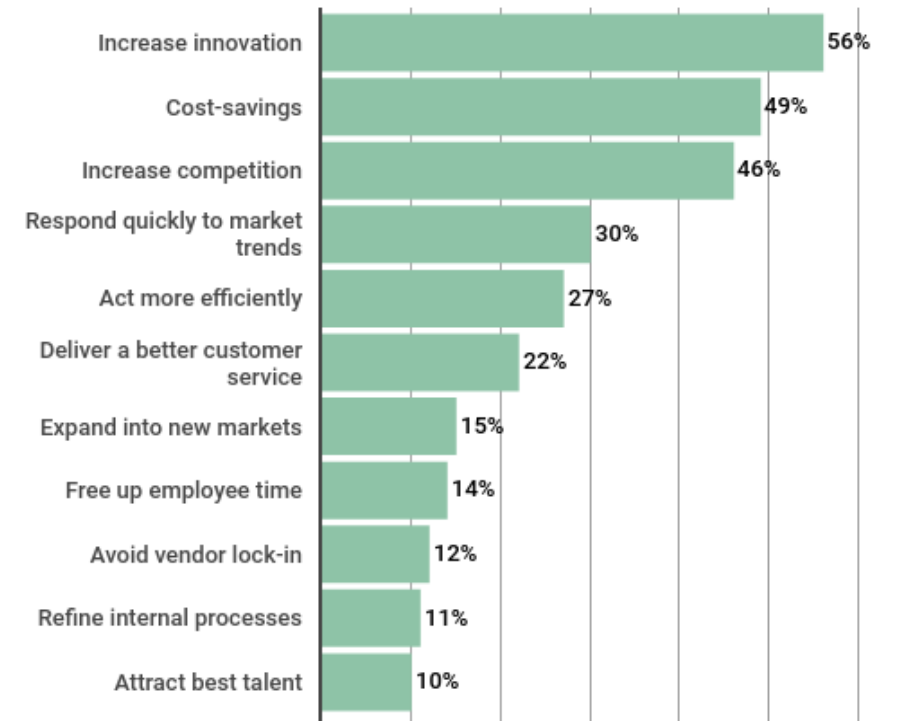

60,000+ developers

3700+ company

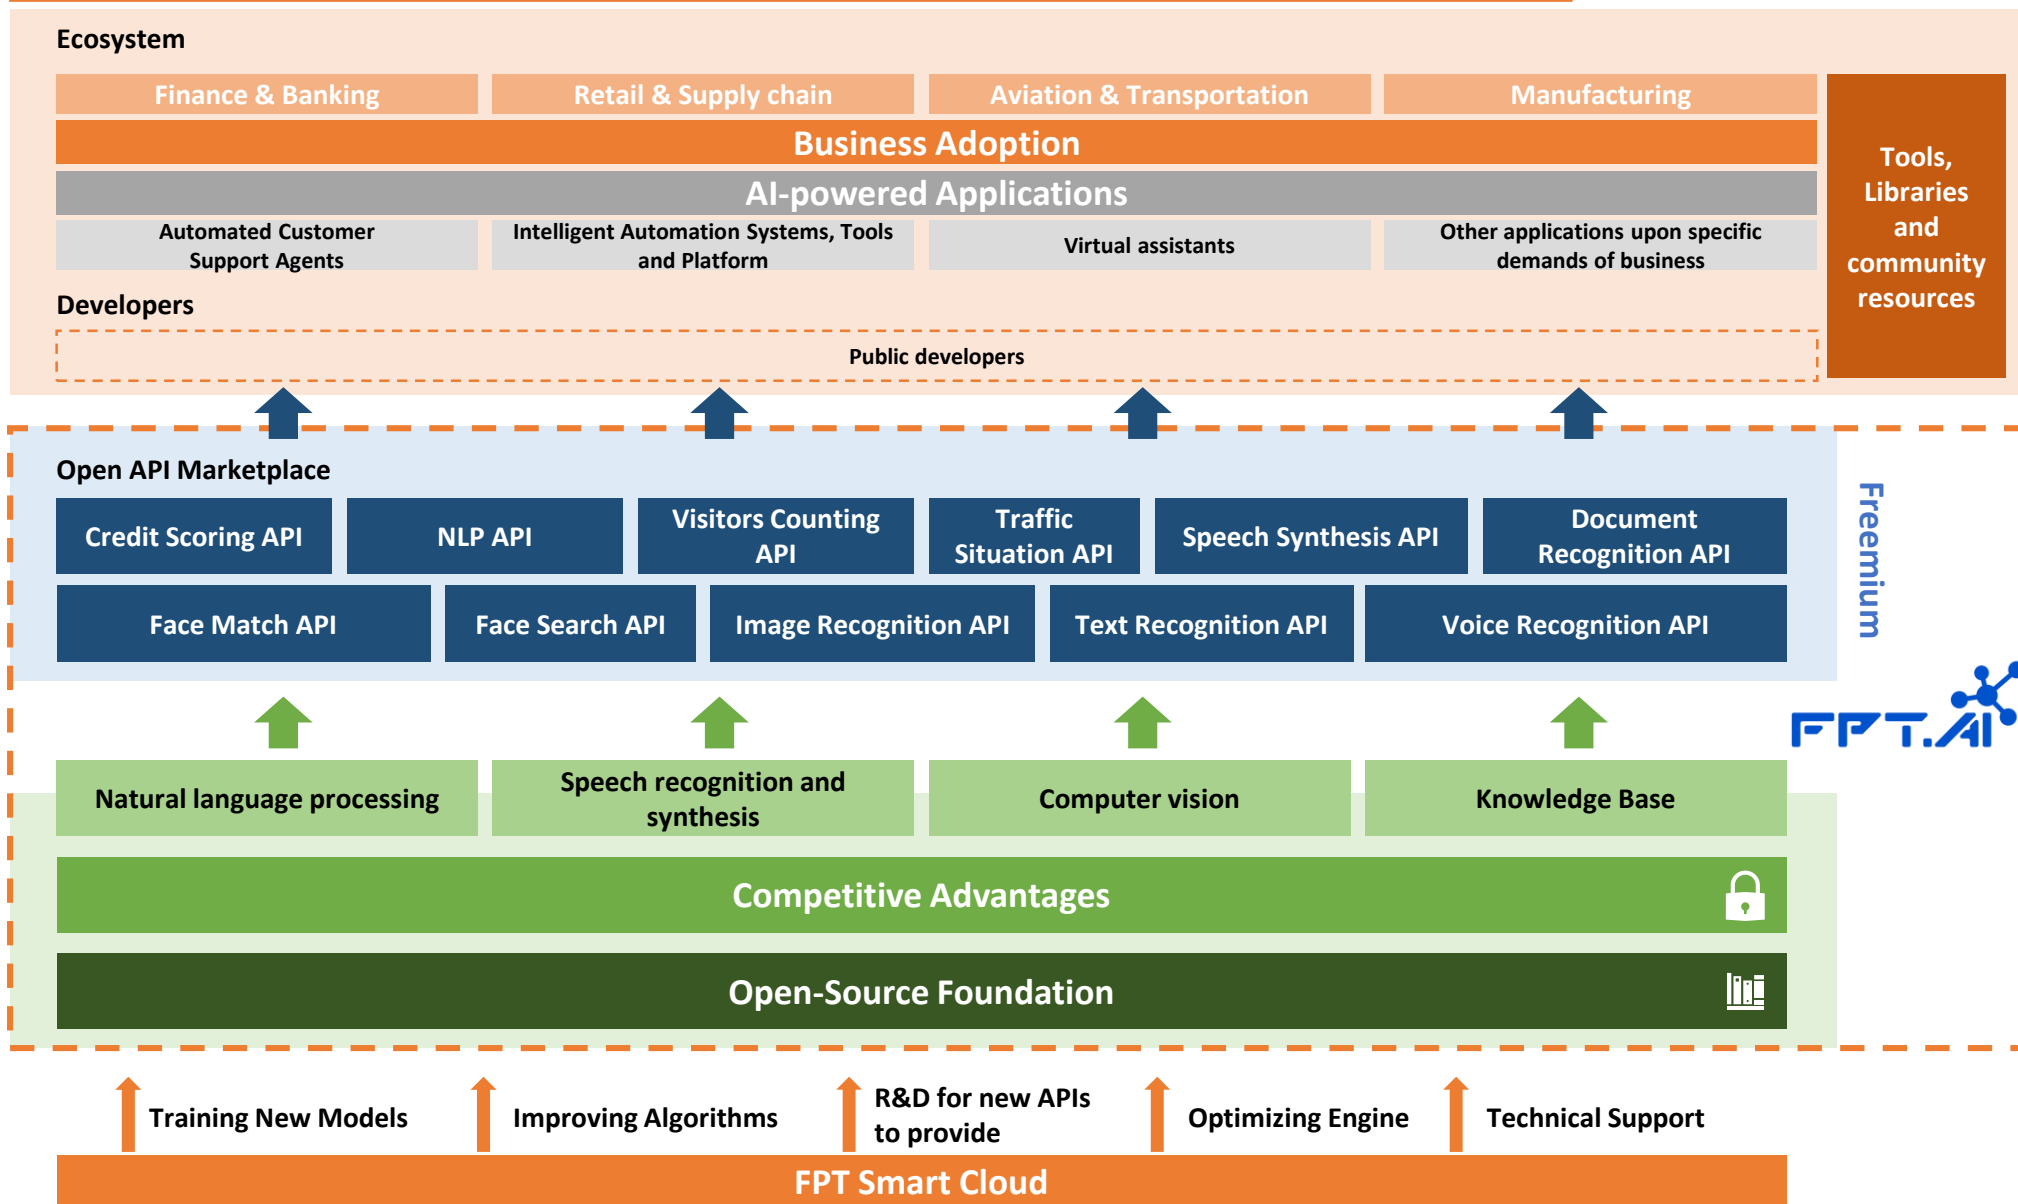

## Top drivers of open-source technology usage

UK survey of IT decision-makers

Rackspace/Vanson Bourne 2016

# FPT Open AI Platform Vision

# FPT Open AI Platform

## What we have achieved

### Contribution

2016  
Open FPT Platform

2017  
FPT.AI Platform

FPT Open Speech Data

2018  
Donate processed voice dataset  
– Batch 1

2019

- Donate processed voice dataset – Batch 2
- Source code and pretrained models to publish on GitHub (DigitalRace-Docker, viBERT,...)

Total API calls (2019-2020)

128,480,856

Growth rate of

230%

Total published APIs

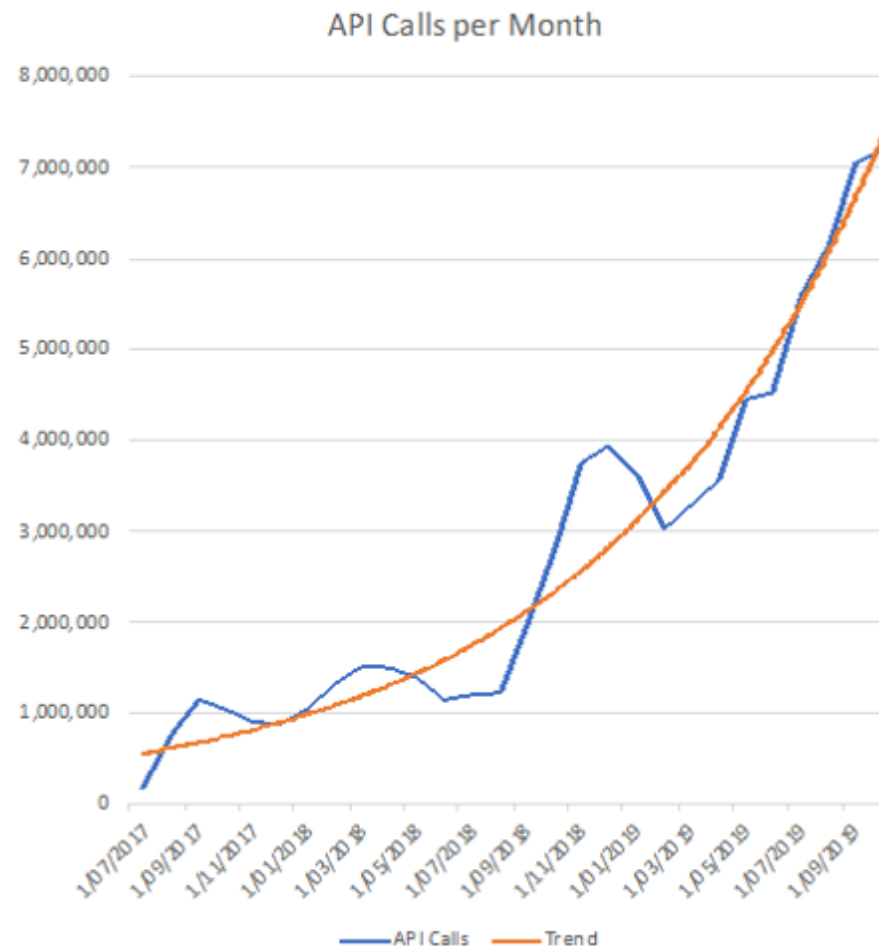

72

Total Accounts of Developer

(at the end of 2019)

28,101

Total calls of community support API on FPT.AI Platform

## Our commitment

- Expanding and developing the ecosystem to enlarge the community for mutual development and creativity in accordance with general corporate strategy
- Foster data and open-source sharing to create foundation AI technologies.

## Proposal

- Data: Prioritize policies relating to Open Data and Data Sharing in order to create a basis for AI application and development
- To have project in building and developing the national data library to be served for research and development purpose.
- The Priority policy for using AI-applied product developed by Vietnam with the following reason: AI uses Big Data as resources, Data is the national property, therefore it is critical for security and protection. Hence the priority policy for using AI-applied product developed by Vietnam will contribute in protecting National Resources.

# Thank you!
